HOLY TRINITY UNIVERSITY

Course: Christian Apologetics - I | Instructor: Mhr. Tadiwos Mengste

Assignment: Take-Home Exam (Chapters 1 & 2) | 2nd Semester/ 2018 E.C

Instructions: Read each question carefully and answer thoroughly in your own words. Because this is a take-home exam, your answers should reflect not just memorization, but a deep comprehension and synthesis of the course material. Be sure to support your arguments with specific examples, biblical references, and historical figures mentioned in the text.

1. Explain the meaning and etymology of the term *apologetics*. Discuss its biblical foundation using 1 Peter 3:15, and explain the four essential elements of apologetics found in this passage.
2. The text outlines five key purposes of Christian apologetics: Defensive, Explanatory, Evangelistic, Edificational, and Doctrinal/Spiritual. Choose *three* of these purposes. For each, write a brief explanation and provide the specific Biblical or Patristic reference given in the text that supports it.
3. Explain the "Clearing the Runway vs. Landing the Plane" analogy used to distinguish between apologetics and evangelism. Draw the flowchart given in the text that demonstrates how apologetics and evangelism work sequentially together in practice.
4. Jesus Himself employed various apologetic methods during His earthly ministry. Identify and describe three specific apologetic methods Jesus used (e.g., use of witnesses, Socratic method, etc.), providing a specific biblical reference for each from the text.
5. Contrast the Western (Latin) apologetic paradigm with the Eastern (Orthodox) apologetic paradigm. In your answer, compare their primary visual analogies (Courtroom vs. Hospital), their ultimate goals (Intellectual Assent vs. Experiential Participation), and their primary tools/methods.

Good Luck!
